

**HELLENIC AGROFORESTRY NETWORK (HAN)**

# **Activities and Policy Issues (2015-2016)**

## MAIN OBJECTIVES

1. **Dissemination**: to increase the level of awareness for agroforestry practices and, specifically, for the provisions of the 8.2 sub measure of the 1305/2013 rural development regulation of the new CAP among technical staff (forest and agricultural engineers) and farmers.
2. **Policy**: to convince policy makers to include and implement the agroforestry measure in the framework of the rural development program of Greece.

# DISSEMINATION

Two workshops were organized in two cities of Northern Greece with a broad agricultural base, where more than 60 local engineers and farmers in each city participated

# **POLICY**

- **Members of the HAN council repeatedly travelled to Athens where they met and talked to political leaders and administrative authorities in the Ministries of Agriculture and Environment as well as of the Management Authority for the implementation of the EU rural development program in Greece.**
- **Technical information was asked and provided to the Management Authority for the 8.2. sub measure while preparing the National Proposal to be submitted to the EU Commission for approval.**

## **CONTACTS AND FORMAL DISCUSSIONS**

- **HAN is official member of Greek National Rural Network since March of 2015.**
- **HAN is in close collaboration with Ministries of Agriculture and Environment, Forest Service, Professionals in Agronomy and Forestry, Farmer's Associations, NGO's and other non profit Organizations in order to promote agroforestry systems in Greece.**
